PROFESSIONAL SUMMARY

Results-driven Senior Data Scientist with 6+ years of experience in Machine Learning, Deep Learning, NLP, and Predictive Analytics. Proven track record of deploying robust ML models in production.

TECHNICAL SKILLS

Python, R, PyTorch, TensorFlow, Scikit-Learn, Pandas, NumPy, NLP, spaCy, HuggingFace, SQL, PostgreSQL, Docker, AWS, Streamlit, Git

WORK EXPERIENCE

Senior Data Scientist | AI Solutions Inc. (2021 - Present)

- Built LLM-powered document parsing and NLP extraction pipelines improving search efficiency by 45%.
- Fine-tuned BERT and spaCy transformers for automated entity extraction.

Data Scientist | TechCorp Analytics (2018 - 2021)

- Developed predictive machine learning models using XGBoost and Random Forest with 92% accuracy.
- Designed interactive dashboards with Streamlit and Plotly for executive stakeholders.

EDUCATION

Master of Science in Computer Science - Stanford University (2018 - 2020)

Bachelor of Technology in Computer Engineering - MIT (2014 - 2018)
